COURSE DESCRIPTION

Pediatric Gastrointestinal (GI) Update for the Primary Care Clinician is designed for physicians and allied healthcare providers specializing in family medicine and pediatrics. This program will provide attendees with updates in clinical management of important and/or commonly seen pediatric disorders in gastroenterology, hepatology and nutrition. This live activity will include didactic lectures, panel discussions, case presentations and Q&A sessions to create a highly interactive environment for the learners.

COURSE OBJECTIVES

At the conclusion of this presentation, attendees should be able to:

- Describe how to support patients and their families during the transition from pediatric to adult care
- Identify appropriate indications for ordering videofluoroscopic swallow studies and how to interpret results
- Identify appropriate diagnosis, evaluation and management of gastroparesis
- Describe presentation and appropriate evaluation and treatment of pediatric IBD
- Assess the use of polyethylene glycol (MiraLax) in treatment of constipation

ONLINE REGISTRATION AND FEES

Register now at <https://iu.cloud-cme.com/aph.aspx?P=5&EID=37645#>

Online registration is preferred. Payment may be made online using MasterCard, Visa, American Express or Discover. You may also pay by check made payable to Indiana University. For more information or assistance, call 317.274.0104.
