

16th Annual LINGEMAN LECTURESHIP

Friday, November 3, 2017

**Fesler Hall • 4th Floor Conference Room • Room 441
1130 W. Michigan Street • Indianapolis, Indiana 46202
Indiana University School of Medicine**

INDIANA UNIVERSITY

SCHOOL OF MEDICINE

DEPARTMENT OF OTOLARYNGOLOGY-
HEAD AND NECK SURGERY

DR. RALEIGH E. ("BUZZ") LINGEMAN, 1921–1999

*First geographic full-time Professor
and Chairman of the Department
of Otolaryngology–Head and Neck Surgery
at Indiana University*

The annual Raleigh E. Lingeman Otolaryngology Lectureship was established by Dr. Lingeman's

friends, colleagues, past residents and family to honor his lifetime of giving and caring for his patients, residents and students, and to promote a spirit of life-long contact among graduates of the Indiana University Otolaryngology Residency Program.

Dr. Raleigh Lingeman began his career-long association with Indiana University School of Medicine as a clinical instructor in otolaryngology in 1952 and advanced to the rank of associate professor in 1963. In 1971 he was appointed the first geographic, full-time professor and chairman of the Department of Otolaryngology–Head and Neck Surgery at Indiana University. He served with distinction in this leadership position until 1987. Dr. Lingeman was named Betty A. Morgan Professor of Head and Neck Surgery in 1982 and held that rank until he died on October 25, 1999.

Dr. Lingeman was a remarkable physician who was deeply committed to the education of students, residents, and fellow otolaryngologists. He understood the field of otolaryngology–head and neck surgery as a high calling that demands the utmost of skill, intellect, compassion and character. Under Dr. Lingeman's guidance, the Department of Otolaryngology–Head and Neck Surgery at Indiana University rose to a position of national prominence.

Course Description

The lectureship is intended to provide otolaryngologists–head and neck surgeons and the general medical community with information on a variety of topics, as outlined in the agenda. This year we are honored to host Patrick J. Byrne, MD, MBA, FACS, as our keynote speaker. Dr. Byrne is director of the Division of Facial Plastic and Reconstructive Surgery, and professor in the Departments of Otolaryngology–Head and Neck Surgery and Dermatology at the Johns Hopkins University School of Medicine. He serves as director of the AAFPRS-accredited Johns Hopkins University School of Medicine Fellowship program in Facial Plastic and Reconstructive Surgery. Dr. Byrne has over 16 years of experience in clinical academic medicine. His clinical expertise is in facial aesthetic and microsurgical reconstructive surgery, with an internationally renowned practice for the treatment of facial paralysis.

Dr. Byrne has also served for the past 11 years as a medical director for Johns Hopkins Medicine International, LLC. In this role, he oversees clinical program development, compliance, quality improvement, and accreditation processes for affiliate medical centers overseas. He also serves as chief medical officer for Aegeria Soft Tissue, LLC, a biotech company developed out of a Johns Hopkins research lab. Dr. Byrne serves on the Board of Directors for the American Academy of Facial Plastic and Reconstructive Surgery, and is a former member of the Editorial Board for JAMA Facial Plastic Surgery. He is active in medical research and is widely published on a range of topics related to facial plastic, reconstructive and trauma surgery.

We are also privileged to host Jonathan Ting, MD, MS, MBA, and Marion E. Couch, MD, PhD, MBA, FACS. Dr. Ting is associate professor in the Departments of Otolaryngology–Head and Neck Surgery and Neurological Surgery, Indiana University School of Medicine. Dr. Ting also serves as director of the Rhinology Division, director of Resident

Research, and chief quality officer for the Department of Otolaryngology–Head and Neck Surgery, Indiana University School of Medicine.

As the first fellowship-trained rhinologist in the state of Indiana, Dr. Ting focuses on advanced clinical and surgical care for patients with nose and sinus disorders, as well as skull base and orbital tumors. His research involves outcomes from the management of sinus and skull base disorders, as well as technological advances and innovative approaches to skull base and orbital lesions.

Dr. Couch is the Richard T. Miyamoto Professor and chair of the IU School of Medicine's Department of Otolaryngology–Head and Neck Surgery; she chairs the IU Health Physicians (IUHP) Board of Directors; and is the former physician executive in surgical services of IUHP. Dr. Couch specializes in surgical treatment of head and neck cancers, in addition to thyroid cancer and parathyroid disease. Her research is to further the treatment of cancer cachexia, which impacts many patients struggling with cancer. Dr. Couch is a fellow of the American College of Surgeons and American College of Physician Executives and is regularly listed among the Top 1% of Doctors in *U.S. News & World Report*. She serves on editorial boards of *The Laryngoscope* and *ENToday* and is the past president of the Society of University Otolaryngologists.

Course Objectives

At the conclusion of this program, participants should be able to:

- Identify the key features of facial asymmetry;
- Understand and apply the four principles of facial attractiveness and deformity to the benefit of the patients; and
- Discuss at least 3 sets of distinct reanimation options to patients with paralysis.

Accreditation Statement

Indiana University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation Statement

Indiana University School of Medicine designates this live activity for a maximum of *2.5 AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Faculty Disclosure Statement

In accordance with the Accreditation Council for Continuing Medical Education (ACCME) Standards for Commercial Support, educational programs sponsored by the Indiana University School of Medicine must demonstrate balance, independence, objectivity, and scientific rigor.

There are no relevant financial relationships with ACCME-defined commercial interests for anyone who was in control of the content of this activity, except:

- Patrick J. Byrne, MD, MBA, FACS, disclosed that he owns stock in Aegeia Skin Care, LLC.
