ADVANCED “VENOUS INTERVENTIONS” Practice Course for Vascular Surgeons

April 19 & 20, 2019, Fairbanks Hall, Indiana University School of Medicine, Indianapolis, IN

The Midwestern Vascular Society is pleased to offer the **ADVANCED “VENOUS INTERVENTIONS” PRACTICE COURSE for VASCULAR SURGEONS**, to be held **April 19 and 20, 2019 at, Fairbanks Hall, at Indiana University School of Medicine, Indianapolis, IN**

This course has been designed for practicing vascular surgeons to fine tune their approach to venous disease. This course offers didactics coupled with small group workshops on both superficial and deep venous topics; and will teach a tailor-made approach to managing venous disease in terms of patient selection, approach, device selection, managing complications and radiation protection. This is a unique and intimate course which offers lectures by expert faculty and workshops allowing for hands-on learning.

The Advanced Venous Interventions Course will be held at Fairbanks Hall at Indiana University School of Medicine.

At the end of the Course, participants will be able to:

- Apply a comprehensive open and endovascular approach to venous disease.
- Describe strategies for evaluating superficial and deep venous disease.
- Identify how to incorporate an algorithmic approach for managing venous disease.
- Identify an appropriate patient selection, device selection to match the venous pathology;
- Assess the cost associated with new technologies and how to provide cost-effective patient care.
