Accreditation Statement

Indiana University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for

physicians.

Designation Statement

Indiana University School of Medicine designates this live activity for a maximum of 4.00 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Faculty Disclosure Statement

In accordance with the Accreditation Council for Continuing Medical Education (ACCME) Standards for Commercial Support, educational programs sponsored by Indiana University School of Medicine (IUSM) must demonstrate balance, independence, objectivity, and scientific rigor. All faculty, authors, editors, and planning committee members participating in an IUSM-sponsored activity are required to disclose **any relevant financial interest or other relationship** with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services that are discussed in an educational activity.

The planning committee and those in a position to control the content of this activity have no relevant financial relationships.

2016-2017 Pediatric Practical Pearls

Workshop Series

Section of General and Community Pediatrics

Riley Hospital for Children
Indiana University Health

Practical Pearls

Saturday, April 29, 2017

7:45 am to 12:00 pm

Riley Outpatient Center
Conference Rooms A & B
575 Riley Hospital Drive
Indianapolis, IN 46202

Course Description

Designed for pediatricians, family practice physicians and others providing primary healthcare to children. This course will review current scientific advances as they apply to daily practice. Participants will advance their diagnostic and therapeutic skills through this highly practical evidence based review.

Course Objectives

At the conclusion of this course, participants will be able to:

- Explain the natural history of Nasolacrimal Duct obstruction, discuss Strabismus and Dacryocystocele; and discern how to treat and if surgical intervention is needed.
- List common procedures done in pediatric interventional radiology and their indications and be able to classify congenital vascular malformations and list treatment options
- Describe the use of appendicitis scoring to aid in diagnosis and be able to explain the imaging recommendations and the parent choice trial for non-operative management.
- Identify common pediatric orthopedic conditions and discuss the latest, up-to-date practices in pediatric Orthopedics.
