Location
These lectures are held in the Riley Outpatient Center (ROC), conference rooms A & B, located at 705 Riley Hospital Drive at the Ruth Lilly Learning Center. A set of elevators or stairs will take you to the lower level. (Follow the yellow arrows)

Parking: The parking is available in the Riley Outpatient Center Garage located next to the main entrance of Riley’s Outpatient Center. Parking Validation is available.

Accreditation Statement
Indiana University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation Statement
Indiana University School of Medicine designates this live activity for a maximum of 4.00 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Faculty Disclosure Statement
In accordance with the Accreditation Council for Continuing Medical Education (ACCME) Standards for Commercial Support, educational programs sponsored by Indiana University School of Medicine (IUSM) must demonstrate balance, independence, objectivity, and scientific rigor. All faculty, authors, editors, and planning committee members participating in an IUSM-sponsored activity are required to disclose any relevant financial interest or other relationship with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services that are discussed in an educational activity.

Note
While it offers CME credits, this activity is not intended to provide extensive training or certification in the field.

Course Description
Designed for pediatricians, family practice physicians and others providing primary healthcare to children. This course will review current scientific advances as they apply to daily practice. Participants will advance their diagnostic and therapeutic skills through this highly practical evidence based review.

Course Objectives
At the conclusion of this course, participants will be able to:

- Recognize the new bugs, the new drug regimens, and the new presentations of old diseases.
- Define key infant and early childhood mental health concepts and identify referral sources for young children with behavioral health needs.
- Describe the physiological effects of stress and learn to apply strategies to enhance resilience.
- Explain concussion diagnosis and management, “Return to Learn” protocol for children and adolescents and update on therapies for helping the concussed student recover.
